Contents of Volume 56

Number 1, January 1976

COHEN, D. and PARNAS, H., An Optimal Policy for the Metabolism of Storage Materials in Unicellular Algae 1

PARNAS, H. and COHEN, D., The Optimal Strategy for the Metabolism of Reserve Materials in Micro-organisms 19

MCMINN, C. L. and OTTAWAY, J. H., On the Control of Enzyme Pathways 57

TEAGUE, R. B. and DEAKIN, M. A. B., Inversion Polymorphism: Character and Stability of Equilibria 75

GRINBERG-ZYLBERBAUM, J., The Retrieval of Learned Information—a Neurophysiological Convergence–Divergence Theory . . . 95

YANG, W., MINARD, R. and MATTHEWS, C., Azacyclopropenylidenimine: A Low Energy Dimer of Hydrogen Cyanide . . . 111

NINHAM, B. W. and SAMMUT, R. A., Refractive Index of Arrays of Spheres and Cylinders 125

DE LEVIE, R. and ABBEY, K. M., A Unified Approach to Ion Transport Through Membranes. 1. Membrane-Soluble Ions . . . 151

WILLIAMSON, J. A. and CHARLESWORTH, B., The Effect of Age of Founder on the Probability of Survival of a Colony . . . 175

BORST-PAUWELS, G. W. F. H., Discrimination Criteria for Apparent Two-site Transport Models 191

PRIEVE, D. C. and RUCKENSTEIN, E., The Surface Potential of and Double-layer Interaction Force between Surfaces Characterized by Multiple Ionizable Groups 205

GREENSPAN, H. P., On the Growth and Stability of Cell Cultures and Solid Tumors 229

LETTERS TO THE EDITOR

ODELL, G. M. and KELLER, E. F., Traveling Bands of Chemotactic Bacteria Revisited 243

GURNEY, W. S. C. and NISBET, R. M., A Note on Non-linear Population Transport 249

Number 2, February 1976

HANNON B., Marginal Product Pricing in the Ecosystem . . . 253

BERG, H. C., How Spirochetes May Swim 269

NANJUNDIAH, V., Signal Relay by Single Cells During Wave Propagation in a Cellular Slime Mold 275

STARZAK, M. E. and TRANCHINA, D. A., An Open System Kinetic Transport Model for the Hodgkin-Huxley Equations . . . 283

NOVAK, B. and SEELIG, F. F., Phase-shift Model for the Aggregation of Amoebae: A Computer Study 301

MURRAY, J. D., On Travelling Wave Solutions in a Model for the Belousov-Zhabotinskii Reaction 329

PARRISH, W., CHITTENDEN, F. and TRIPLETT, E., A Computer Simulation of Transcription and Processing of Eucaryotic mRNA . . 355

FINN, J. T., Measures of Ecosystem Structure and Function Derived from Analysis of Flows 363

ROSS, G. G. and NIVAL, P., Plankton Modeling in the Bay of Villefranche 385

MENZEL, E. R., On the Energy Upconversion Mechanism of Light Utilization by Chlorophyll in Photosynthesis 401

SAIDEL, G. M., LIOTTA, L. A., and KLEINERMAN, J., System Dynamics of a Metastatic Process from an Implanted Tumor . . . 411

BERDE, C., Nonmonotonic Transients and Some Mathematical Models of Circadian Rhythms 431

JENSEN, M. D., WALLACH D. F. H. and SHERWOOD, P., Diffusion in Tissue Cultures on Gas-permeable and Impermeable Supports 441

NISBET, R. M., and GURNEY, W. S. C., Population Dynamics in a Periodically Varying Environment 455

PAINTER, P. R., A Model for the Control of the Batch Culture Growth Rate of Enteric Bacteria 471

ARGUS, M. F. and ARCOS, J. C., Hydrocarbon-nitrosamine Synergism as a Possible Amplifying Factor in Lung Tumorigenesis by Tobacco Smoke 491

LETTERS TO THE EDITOR

ARMSTRONG, R. A. and MCGEHEE, R., Coexistence of Two Competitors on One Resource 499

MORAND, P., KALAPURACKAL, M., LOMPA-KRZYMIEN, L. and VAN TONGERLOO A., Steroid Oxides as Potential Precursors in the Biosynthesis of Estrogens 501

Index to Volume 56

Abbey, K. M. A., (see De Levie, B. W.), 151
Age of founder on the probability of survival of a colony, the effect of, 175
A model for the control of the batch culture growth rate of enteric bacteria, 477
Amoebae, phase-shift model for the aggregation of: a computer study, 301
Analysis of flows, measures of ecosystem structure and function derived from, 363
An open system kinetic transport model for the Hodgkin-Huxley equations, 283
A note on non-linear population transport, 249
Argus, M. F. and Arcos, J. C., 491
Armstrong, R. A. and McGehee, R. 499
Azacyclopropenylidenimine: a low energy dimer of hydrogen cyanide, 111

Belousov-Zhabotinskii reaction, on travelling wave solutions in a model for the, 329
Berde, C., 435
Berg, H. C., 269
Biosynthesis of estrogens, steroid oxides as potential precursors in the biosynthesis of, 503
Borst-Pauwels, G. W. F. H., 191

Cell cultures and solid tumors, on the growth and stability of, 229
Cellular slime mold, signal relay by single cells during wave propagation in a, 275
Charlesworth, B., (see Williamson, J. A.), 175
Chemotactic bacteria revisited, travelling bands of, 243
Chittenden, F. (see Parrish, W.), 355
Chlorophyll in photosynthesis, on the energy upconversion mechanism of light utilization by, 401
Circadian rhythms, non-monotonic transients and some mathematical models of, 435
Coexistence of two competitors on one resource, 499
Cohen, D. and Parnas, H., 1
Cohen, D. (see Parnas, H.), 19
Colony, the effect of age of founder on the probability of survival of a, 175
Competitors, coexistence of two, on one resource, 499
Cylinders and spheres, refractive index of arrays of, 125

Deakin, M. A. B. (see Teaque, R. B.), 75
De Levie, R. and Abbey, K. M., 151
Diffusion in tissue cultures on gas-permeable supports, 443
Discrimination criteria for apparent two-site transport models, 191
Double-layer interaction force between surfaces characterized by multiple ionizable groups, 205

Ecosystem, marginal product pricing in, 253
Ecosystem structure and function derived from analysis of flows, measures of, 303
Effect of age of founder on the probability of survival of a colony, 175

Enteric bacteria, a model for the control of the batch culture growth rate of, 477
Enzyme pathways, on the control of, 57
Equilibria, character and stability of: Inversion polymorphism, 75

FINN, J. T., 363

Gas-permeable and impermeable support, diffusion in tissue cultures on, 443
GREENSPAN, H. P., 229
GRINBERG-ZYLBERBAUM, J., 95
Growth rate of enteric bacteria, a model for the control of the batch culture, 477
GURNEY, W. S. C. and NISBET, R. M., 249
GURNEY, W. S. C. (see NISBET, R. M.), 459

HANNON, B., 253
Hodgkin-Huxley equations, an open system kinetic transport model for, 238
How spirochetes may swim, 269
Hydrocarbon-nitrosamine synergism as a possible amplifying factor in lung tumorigenesis by tobacco smoke, 491
Hydrogen cyanide, a low energy dimer of, azacyclopropenylidenimine, 111

Inversion polymorphism: Character and stability of equilibria, 75
Ion transport through membranes, a unified approach to, 1. Membrane-soluble ions, 151

JENSEN, M. D., WALLACH, D. F. H. and SHERWOOD, P., 443

KALAPURACKAL, M. (see MORAND, P.), 503
KELLER, E. F. (see ODELL, G. M.), 243
KLEINERMAN, J. (see SAIDEL, G. M.), 417

Learned information, the retrieval of—a neurophysical convergence-divergence theory, 95
Light utilization by chlorophyll in photosynthesis, on the energy upconversion mechanism of, 401
LIOTTA, L. A. (see SAIDEL, G. M.), 417
LOMPA-KRZYMIEN, L. (see MORAND, P.), 503
Low energy dimer of hydrogen cyanide: Azacyclopropenylidenimine, 111
Lung tumorigenesis by tobacco smoke, hydrocarbon-nitrosamine synergism as a possible amplifying factor in, 491

Marginal product pricing in the ecosystem, 253
MATTHEWS, C. (see YANG, W.), 111
MCGEHEE, R. (see ARMSTRONG, R. A.), 499
MCMINN, C. L. and OTTAWAY, J. H., 57
Measures of ecosystem structure and function derived from analysis of flows, 363

Membrane-soluble ions, A unified approach to ion transport through membranes, 151
MENZEL, E. R., 401
Metabolism of reserve materials in micro-organisms, the optimal strategy for, 19
Metabolism of storage materials in unicellular algae, an optimal policy for the metabolism of, 1
Metastatic process from an implanted tumour, system dynamics of a, 417
Micro-organisms, the optimal strategy, for the metabolism of reserve materials in, 19
MINARD, R. (see YANG, W.), 111
MORAND, P., KALAPURACKAL, M., LOMPA-KRZYMIEN, L. and VAN TONGERLOO, A., 503
MURRAY, J. D., 329

NANJUNDIAN, V., 275
Neurophysiological convergence-divergence theory, the retrieval of learned information, 95
NINHAM, B. W. and SAMMUT, R. A., 125
NISBET, R. M. and GURNEY, W. S. C., 459
NISBET, R. M. (see GURNEY, W. S. C.), 249
NIVAL, P. (see ROSS, G. G.), 381
Nonmonotonic transients and some mathematical models of circadian rhythms, 435
NOVAK, B. and SEELIG, F. F., 301

ODELL, G. M. and KELLER, E. F., 243
On the control of enzyme pathways, 57
On the energy upconversion mechanism of light utilization by chlorophyll in photosynthesis, 401
On the growth and stability of cell cultures and solid tumors, 229
On travelling wave solutions in a model for the Belousov-Zhabotinskii reaction, 329
Optimal policy for the metabolism of storage materials in unicellular algae, 1
Optimal strategy for the metabolism of reserve materials in micro-organisms, 19
OTTAWAY, J. H. (see MCMINN, C. L.) 57

PAINTER, P. R., 477
PARNAS, H. and COHEN, D., 19
PARNAS, H. (see COHEN, D.), 1
PARRISH, W., CHITTENDEN, F. and TRIPLETT, E., 355
Periodically varying environment, population dynamics in a, 459
Phase-shift model for the aggregation of amoebae: A computer study, 301
Photosynthesis, on the energy upconversion mechanism of light utilization by chlorophyll in, 401
Plankton modeling in the bay of Villefranche, 381
Population dynamics in a periodically varying environment, 459
Population transport, non-linear, a note on, 249
PRIEVE, D. C. and RUCKENSTEIN, E., 205
Probability of survival of a colony, the effect of age of founder on, 175

Refractive index of arrays of spheres and cylinders, 125
Reserve materials in micro-organisms, the optimal strategy for the metabolism of, 19
Retrieval of learned information—a neurophysical convergence-divergence theory, 95
Ross, G. G. and Nival, P., 381
Ruckenstein, E. (see Prieve, D. C.), 205

Saidel, G. M., Liotta, L. A. and Kleinerman, J., 417
Sammut, R. A. (see Ninham, B. W.), 125
Seelig, F. F. (see Novak, B.), 301
Sherwood, P. (see Jensen, M. D.), 443
Signal relay by single cells during wave propagation in a cellular slime mold, 275
Solid tumors, on the growth and stability of cell cultures and, 229
Spheres and cylinders, refractive index of arrays of, 125
Spirochetes, how they may swim, 269
Starzak, M. E. and Tranchina, D. A., 283
Steroid oxides as potential precursors in the biosynthesis of estrogens, 503
Surfaces characterized by multiple ionizable groups, the surface potential of and double layer interaction force between, 205
Surface potential of and double-layer interaction force between surfaces characterized by multiple ionizable groups, 205
Survival of a colony, the effect of age of founder on the probability of, 175
System dynamics of a metastatic process from an implanted tumor, 417

Teague, R. B. and Deakin, M. A. B., 75
Tobacco smoke, Hydrocarbon-nitrosamine synergism as a possible amplifying factor in lung tumorigenesis by, 491
Tranchina, D. A. (see Starzak, M. E.), 283
Transport models, discrimination criteria for apparent two-site, 191
Travelling bands of chemotactic bacteria revisited, 243
Triplett, E. (see Parrish, W.), 355
Two-site transport models, discrimination criteria for apparent, 191

Unicellular algae, an optimal policy for the metabolism of storage materials in, 1
Unified approach to ion transport through membranes. 1. Membrane-soluble ions, 151

Van Tongerloo, A. (see Morand, P.), 503
Villefranche, plankton modeling in the bay of, 381

Wallach, D. F. H. (see Jensen, M. D.), 443
Wave propagation in a cellular slime mold, signal relay by single cells during, 275

Williamson, J. A. and Charlesworth, B., 175
Yang, W., Minard, R. and Matthews, C., 111
